

# BAIN & COMPANY

## Who we are

Bain & Company is one of the world's leading global management consulting firms. We work with clients across six continents on issues of strategy, operations, technology, organisation and mergers and acquisitions.

Bain has 37 offices worldwide and employs over 3,700 people working with major international corporations in more than 60 countries.

## What we do

Founded in 1973 on the principle that business consultants must measure their success in terms of their clients' financial results, Bain works with top management teams to beat their competitors and generate substantial, lasting financial impact.

Our business is about making companies more valuable. We realise that helping an organisation change requires more than just a recommendation. So we try and put ourselves in our clients' shoes and focus on practical actions.

## Our people

Our people are passionate about what we do. We realise our people and our culture are our greatest assets. We share common attributes that help drive our unique culture.

We are eager, driven, and committed;

We are direct, honest, and informal with our clients at all levels;

We firmly believe that teamwork creates more value and generates more opportunities than individuals working alone;

We value diversity;

We are down-to-earth, friendly and approachable;

We understand the importance of a sustainable work/life balance;

We enjoy what we do, and we laugh a lot.

## Bain Australia

Bain's Australian practice was opened in 1989, and we have offices in both Sydney and Melbourne. We primarily work with Australian based companies in a range of sectors including consumer goods, retail, transportation, financial services, telecommunications and private equity.

## Recruitment opportunities

We recruit people with intelligence, integrity, passion and the ambition to make a difference. Our recruits have demonstrated exceptional academic performance and strong analytical, interpersonal and leadership skills. They are a group of high achieving people from diverse disciplines: from economics, science, engineering to law and philosophy.

We have an online application process: simply click on 'Join Bain' at [www.bain.com](http://www.bain.com)

To apply you will need:

- a cover letter
- CV (including university entrance mark, university course results and details of extra-curricular activities).
